FILE: GBC USB-C Charging Kit

REV: V1.4

Date: 27/03/2021 13:34:49

Sheet: 1/1

This board has been based on:
<https://github.com/e-radionicom/Lithium-ion-charger-with-protection---Eagle-files>

The original power supply of the GBC provide an 3VDC input (2 AA batteries or an AC adapter) and provides the operating voltage for the Game Boy Color (5 VDC, - 15 VDC and 13.6 VDC).
The minimum input voltage is 2 VDC and the maximum operating voltage is 4.6 VDC.
